DETAILED ACTION

The amendment filed 09 April 2007 is acknowledged and has been entered. Claims 1-17, 22, 39, and 40 have been examined on the merits.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Double Patenting

Claims 1-17 22, 39, and 40 stand rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 and 2 of U.S. Patent No. 6,929,808 for the reasons set forth in the previous Office action which are restated below.

Although the conflicting claims are not identical, they are not patentably distinct from each other because both are drawn to a method for isolating amyloid inhibitory compounds/components from *Uncaria* plant matter via the same or similar process steps.

Again, please note that although the Bibliographic data provided by Applicants state that the instant Application is a Divisional Application of US Patent No. 6,929,808, the instantly claimed preparatory method is deemed to reasonably read upon the claimed '808 preparatory method with respect to the obviousness-type double patenting rejection above (i.e., no restriction requirement was made in the parent Application in terms restricting the instantly claimed preparatory method from the preparatory method set forth in the '808 claims).

Applicants state within their 09 April 2007 response that a Terminal Disclaimer will be timely submitted to overcome the above obviousness-type double patenting rejection. However, no Terminal Disclaimer has been received to date (it should be noted that the Examiner called Applicant's representative several times in recent weeks and was informed that a Terminal Disclaimer was being filed, however none has been received at the time of this Office action).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Conclusion

No claim is allowed.
